RE: Proposed Truck Route for Entry into Elcon's Facility Located in the Keystone Industrial Port Complex 100 Dean Sievers Place Morrisville, PA

Dear Ramesh,

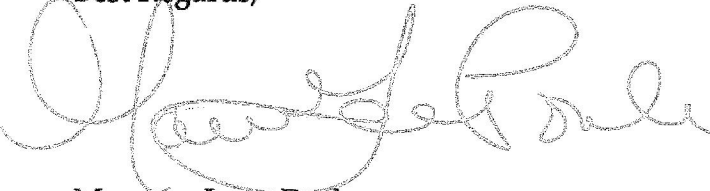

SJ Transportation Co., Inc. agrees to make a contractual commitment not to use Pennsylvania Avenue in Morrisville, PA. The route purposed into and out of the proposed Elcon Site at the Keystone Industrial Port Complex is:

Walt Whitman Bridge, to I-95 North to Exit 40 Route 413 (Bristol Exit), Bear Right onto 413, turn left onto Route 13 North (Bristol Pike), bear right onto Tyburn Road, turn right onto New Ford Mill Road, turn left onto West Steel Road, turn right onto South Steel Road, turn left onto Dean Sievers Place – end at 100 Dean Sievers Place.

If required to enter Pennsylvania or New Jersey via another route, SJ will still require all drivers/trucks to use Route 13 North (Bristol Pike), to Tyburn Road, to New Ford Mill Road, to West Steel Road, to South Steel Road, to Dean Sievers Place – end at 100 Dean Sievers Place.

If you should require any additional information regarding the proposed route into Elcon's new facility, please do not hesitate to contact me.

Best Regards,

Maureen Levy Poole
Director of Environmental Health & Safety
